

Pet's name _____ Procedure _____

Presurgical Consent Form-General

Pre-Surgical Blood Testing - \$90.00

Blood testing to evaluate liver and kidney function and red blood cell count can help us better reduce the risk of anesthetic complications. This test is recommended, but optional for animals less than 7 years old and required for pets over 7 years old (unless blood tests ran within last 3 months were normal)

Accept _____

Decline _____

IV Catheter and fluids - \$46.00

IV catheters significantly increase the safety of the anesthetic procedure. The catheter provides a route to administer emergency medicine in the rare cases needed and is also a route to maintain blood pressure during the procedure which has been shown to improve and speed recovery and decrease reactions to anesthesia. IV catheters are optional for pets under 7 years old, but required for pets over 7 years old.

Accept _____

Decline _____

Pain medication

All pets receiving surgery receive a short acting sedative and pain medication before surgery. Although animals are good at hiding their pain, many routine procedures can cause post-operative pain. We recommend pain medication to be given at home after all surgical procedures, our doctors and technicians are happy to discuss if you have questions.

Pain medication to go home cost: \$50-100 Accept _____
(Depending on size of pet)

Decline _____

Additional procedures:

Release:

I am the owner or caretaker of the pet and am over 18 year of age. I assume responsibility of care after surgery and authorize the doctors at Wilderness Animal Hospital to perform the surgery. While performing the surgery should the doctor find the procedures(s) to be more involved resulting in additional cost, I will be contacted at the phone number below. If I cannot be contacted, I authorize the doctor to perform the necessary procedure at his/ her best discretion.

I understand full payment is required when the patient is discharged.
